# THE STORY

We live in a time where we are so busy, overworked and in need of some form of escape or rest.

INTO THE WILD FILMS is focused on pouring positivity into the world by putting our Creator, Jesus, in the middle of all the content that's being captured and filmed through my lens.

I provide services that specialize in weddings, proposals, couple shoots, events and productions.

Beautiful moments and special days are very important. It is my honour to catch these moments and create a timeless memory.

My aim is to bless the people that make use of my services. I serve my clients positively and favourably, whilst leaving them happy.
